

NaStation Desktop Version Install Tutorial

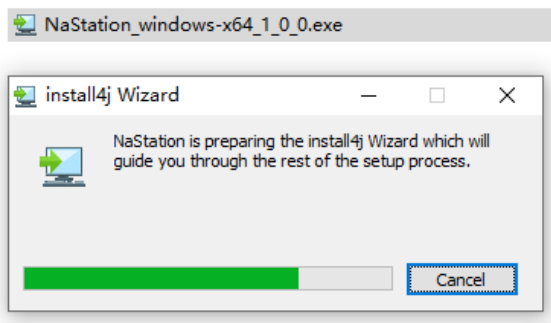

1. Download

<https://www.nachain.org/app>

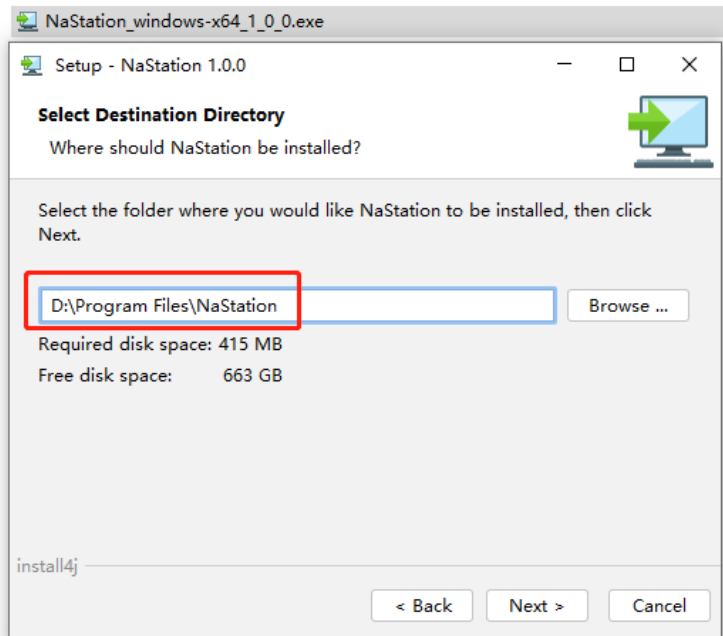

NaStation is available for all major operating Systems.

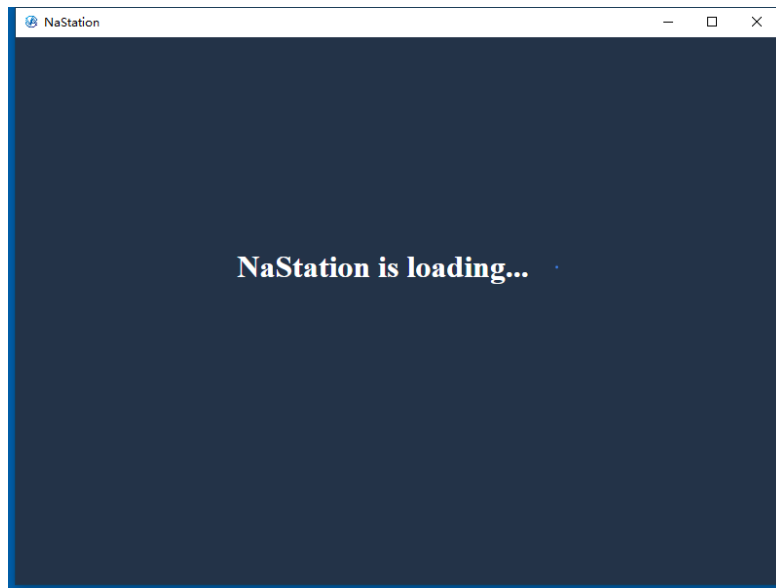

2. Setup

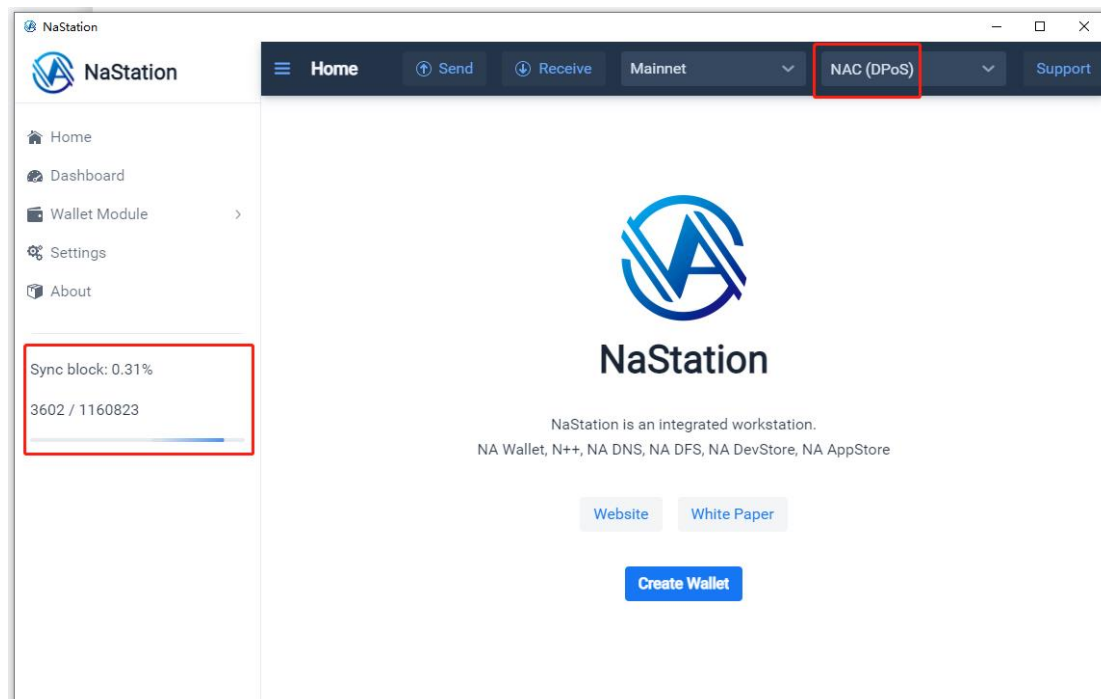

3. Please choose to install to a non-system disk
(May be permission problems when installing on the C drive)

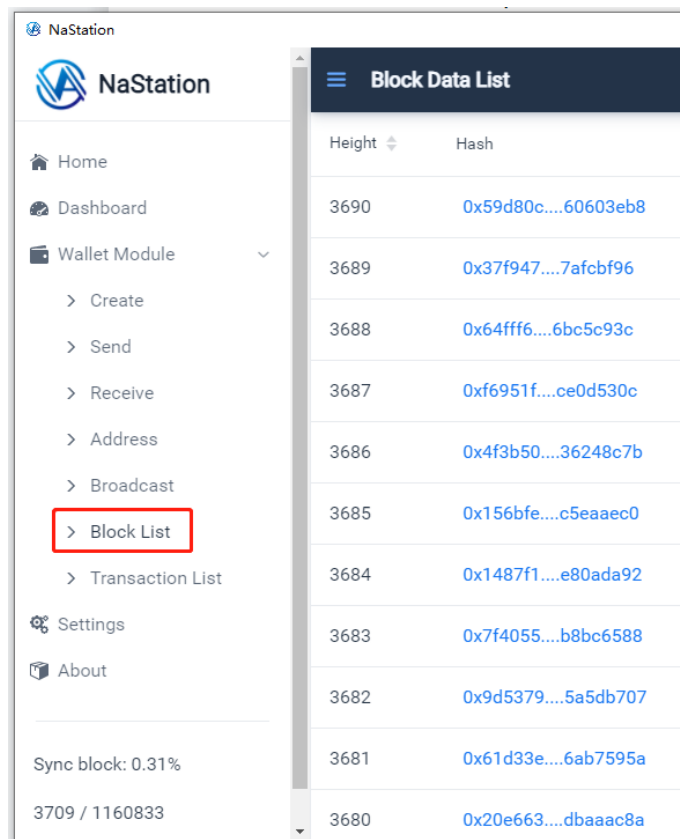

4. Run (It takes some time to start, please be patient)

5. Nastation will sync block data for all instances

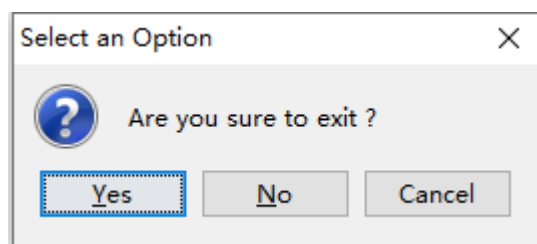

6. Block list (The list will show the latest 100 block data)

7. Close and exit

(Please wait for the program to complete the cleaning operation and then close)

8. Thanks for your support...
